Tug Boat for the Columbia Bar

The following is Chapman's bill to establish and maintain a steam tug at the mouth of the Columbia:

Be it enacted by the Legislative Assembly of the State of Oregon as follows:

SECTION 1. That section 22 of title 2, chapter 42 be and the same is amended to read as follows:

Sec. 22. That ... are hereby appointed Commissioners for and in behalf of the State to invite proposals from and contract with the present Columbia bar pilots, or such of them as the said contracting Commissioners may think advisable, and if they after reasonable notice shall neglect or decline to contract, then with any other responsible citizen of the United States, or corporation organized under the laws of this State, for placing upon the pilot grounds between Astoria and the open sea outside the bar a powerful steam tug boat at least of sufficient size, strength and ... power for the purpose of towing and piloting vessels across said bar in all weather when it can be crossed by the best class of steam and sailing vessels, together with an abundant supply of boats, and every appliance which the said contracting Commissioners shall think necessary, with the hull and machinery duly inspected and approved under the laws of the United States, and a master and sufficient number of pilots in her employ, well qualified to act as such bar pilots, the said master and pilots in her employ to take and receive a license from the pilot commissioners authorized to grant the same; that upon notice to said contracting commissioners and the pilot commissioners that the steam tug boat that shall be contracted for as hereinbefore provided is upon the pilot ground as aforesaid, they or a majority of two thirds of them shall assemble on board of such vessel, and if satisfied that such tug boat, boats, and appliances are in all respects such as are contemplated by the contract entered into as provided, and under oath so certify, the pilot commissioners shall then license the master and other pilots in the employ of such tug boat, and shall revoke all other licenses for the pilot ground aforesaid, and shall not license any other bar pilots than such as shall be in the employ of such tug boat, so long as such tug boat shall truly and faithfully perform pilotage and towage upon the said pilot ground for the term of five years, and as much longer as the said tug boat shall be able to answer the demands of the public service and not exceeding the term of ten years. That as a consideration for the performance of such contract as herein provided for the said contracting commissioners are authorized on behalf of the State of Oregon to agree to pay the contracting party the sum of $10 000 for the first year, $6 000 for the second year and $3 000 for the third year that such tug boat shall perform such service as is herein contemplated, payable quarterly in United States gold coin out of any money in the treasury not otherwise appropriated. The account for such service to be audited and drawn for on the Treasurer by the Secretary of State, upon the certificate of the pilot commissioners that such service has been performed.

Sec. 2. That section 11 of title 11, chapter 42, be amended to read as follows: That the fee for piloting a steamer from the open sea beyond the bar to Astoria, shall be ten dollars per foot draft for the first twelve feet, and twelve dollars per foot draft for any excess above twelve feet. If a pilot shall board a steamer bound in while she is either in or within the bar, and not above Sand Island, he shall be entitled to half fees only from thence to Astoria, and if at the time of boarding she shall be above Sand Island, he shall be entitled to quarter fees only. The fees for piloting and towing a sail vessel from open sea beyond the bar to Astoria, shall be five dollars per foot draft for the first twelve feet, and seven dollars per foot for any excess above twelve feet, and for such piloting and towing from Astoria to the open sea beyond the bar, five dollars per foot draft for the first twelve feet, and seven dollars per foot draft for any excess above twelve feet. If a pilot shall board or take in tow a sail vessel on or within the bar, and not above Sand Island, he shall only be entitled to half fees from thence to Astoria, and if, at the time of boarding, such vessel shall be above Sand Island he shall be entitled to quarter fees only.

Sec. 3. That the steam tug boat hereinbefore provided for after being accepted by the contracting commissioners aforesaid, and entering upon the discharge of her duties, shall at all times carry a sufficient supply of provisions and water as may be necessary for the relief of vessels in distress, and it shall be the duty of masters and pilots, at all times, to offer such aid to vessels in stress of weather. If any of said contracting commissioners shall die, resign, or refuse to act, it shall not be necessary to fill the vacancy, but the remainder of such commissioners shall be competent to perform the duties prescribed by this act.

Campaign Notes

Says the New York *Times*: The tremendous revulsion against the Democratic party, caused by the rebellious declarations of Vance, Hampton and others immediately after the nomination of Seymour and Blair on a revolutionary platform, has thrown these men into such a panic, that they have felt compelled to come out and attempt to modify the language reported at the time in the Southern journals. If they had denied it immediately after its publication in their own papers, and before its ruinous effects on their party were felt, their course would not have looked so foolish. In any event, to make the matter at all worth while they must deny having delivered any part of the speeches reported in their name, for the very spirit of them was the old spirit of the rebellion.

Reviewing the political situation in Ohio, the Cincinnati *Chronicle* remarks: "We desire our friends in other States to understand that Ohio—Grant's native State—is not, and has not been at any time since the Chicago nominations were made, at all doubtful. We have felt sure, from the outset, of at least 25 000 majority for Grant in this State. The present indications are that it will exceed 40,000. On the other side, the nomination of Seymour and Blair had a disheartening effect which has not been recovered from. The Democrats are without zeal or enthusiasm. They are inactive and despondent. Whatever may be said by such men as Vallandigham—who expected to be Governor in 1863, until he woke up one morning in October, and found himself beaten by one hundred thousand majority—no sagacious Democrat dreams of carrying Ohio this year, any more than Maine or Vermont. We speak advisedly."

Pirate Semmes says he fought for Democratic principles when he was out burning unarmed vessels and stealing chronometers. He explains as follows: "I have been a Democrat all my life—before the war, during the war, and since the war and fought the war on the principles of Democracy, believing that the grand old Constitution which embodied those principles was about to be destroyed. I drew my sword against the old flag—the old flag which no longer represented those principles. It was not the flag of 1776 against which I drew my sword, but the flag which had become a flaunting lie. The grand old Democratic party has risen from the slumber in which it had indulged, and now gives signs of new life and vitality, and I have come here to-night from the country to ratify and rejoice with you in the nomination of Seymour and Blair."

The New York *Times* says that at the Vermont election, a large number of Democrats voted the Grant ticket. They were men who would have gone with the Democratic party but for its revolutionary platform and unfortunate candidate—they were men who favored peace, of which General Grant is the representative. They were men who feared the renewed domination of the old rebel leaders of the South, which may justly be apprehended. They were men who did not like to see Grant traduced, in order that Lee might be glorified—men who did not like to see the cause for which the Union soldiers fought defamed in order that the rebel horde might be exalted. There are thousands of such Democrats in every Northern State and there is no doubt but that they will everywhere vote for Grant, as they did in Vermont and Maine.

FORT WALLACE, Sept 2?. ... Col. Forsyth's ... [illegible] ... Forsyth ... the morning of the 25th inst. Col. Bankhead and a command which left here with provisions etc., arrived soon after Col. Carpenter. Col. Forsyth lost five killed and twelve wounded ... all his horses. The Indians loss was not far from eighty killed and wounded. The Indians are the Sioux, Cheyennes and Arrapahoes. They number between six and seven hundred. It is estimated that they fired not less than 10 000 rounds, besides a quantity of arrows. The ground was thickly strewn with the latter. Col. Forsyth's wounds are doing well. The fight on the first day was the worst and most terrific that has ever taken place on the plains. The Indians made charge after charge, sometimes coming within fifty feet of our men. The Island on which they were, had a few bushes and a small amount of grass. Our men were ... exposed. Their only defense was a small sand breastwork which was thrown up with no tools and by working between the attacks of the Indians who rode around charging down on them. At some points, our party was digging while the rest fought.

Butler Makes a Speech

SALEM, Sept. 28.—B. F. Butler made a speech to the Republican Convention to-day accepting the nomination. He referred to those who opposed his nomination, classing them with Lee, Forrest, Beauregard and Booth, charging them with raising $40 000 to defeat his nomination, which he considers equivalent to his election. He ... mends the malcontents to send their money into some doubtful State. He considers those who oppose him deserters from the Republican party. He said the party should be managed as the army. Welcome recruits and shoot deserters. He denied the rumors that Grant opposed his election and spoke at length on the finance question.

The Hawaiian Islands and the Treaty

An American who is said to occupy a very influential position at the Hawaiian Islands has written an article touching the treaty which failed to receive the sanction of the United States Senate at the recent session The article is an important one was before the Senate when that body was considering the treaty and is thought to have exerted considerable influence in deciding its fate The writer says that the growth of American sentiment at the Islands was steady until the reciprocity treaty checked the desire for annexation The treaty has developed an anti American feeling, and the strong point urged in favor of it has been that it would effectually quiet all desire for annexation to the United States The present attitude, of the Hawaiian Government is more adverse to the United States than at any former period An nexation by purchase during the life time of the present King is impossible Such is the prejudice of the King against all Americans, and such his hatred of American institutions, that he would much prefer to give the Islands away to England rather than take any price for them from the United States It is the opinion of the writer that it would be commercially a bad bargain to pay $1,000,000 for the Islands; for, except for their strategic importance he holds that they are not worth buying, stealing, watching or defending The Islands are ruled by a petty but rigorous despotism, which is impressed with large ideas of its imaginary importance, and the writer is of opinion that a little wholesome neglect by our Government would be more desirable and effective than the coaxing, obsequious policy which has heretofore been pursued If the United States aims at the acquisition of the Islands, it is his decided belief that the reciprocity treaty would make this result much more difficult of accomplishment.

Signal of the White Feather

The *Herald* has at last pronounced in favor of the passage of the secession ordinance now before the Oregon Legislature. But it sorrowfully admits that it cannot destroy the validity of the fourteenth amendment The power to repeal by an act of a single State Legislature a part of the Constitution of the United States, is not commensurate with the power to do it. Now we want to know if the Democracy of Oregon are going to show the white feather in this way? After annulling this portion of the Constitution are they not purposing to boldly stand their ground? Does the Legislature intend to adjourn without putting the State in a posture of defence and providing means for resisting the enforcement of this odious and invalid part of the Constitution? For shame! Show yourselves men and Democrats! Are you less brave, less chivalrous, less devoted to Democratic principles, than South Carolina was in 1861, when she threw off the Constitution, armed her people and defied the whole power of the United States? Spurn the advice of the dastard of the *Herald* who would have you back down ignominously after you have taken your [illegible] and [illegible] your principles! After you have repealed and thrown off the Constitution, do for the sake of your honor and the glory of Democracy, stand firm against Federal aggression! Arm the State at once, and away with the timid counsels of the cowardly! Erect your standards, and exclaim in the language of the son of Polonius

> Allegiance to hell! Vows to the blackest devil!
> Conscience and grace to the profoundest pit!
> We dare damnation, to this point we stand,
> Let come what comes!

H. W. S.

A False Excuse

The Senate Committee to whom Oregon's secession ordinance was referred, have reported in favor of its adoption. The Committee take occasion to say "We are confident that the conduct of the dominant party in the last Legislature, with reference to the proposed amendment to the Federal Constitution, was one of the reasons of its overthrow at the late election" What's the use of this blundering insincerity? The Committee know well enough that the one and only cause of the Republican defeat was the immigration of rebels, many of whom boast that they served in the rebel armies. The Republican vote was larger in the last election than ever before, and it was outnumbered only by the influx of unhanged rebel Democrats. Not a vote was lost by the Republicans on account of the fourteenth amendment. That amendment is the most popular measure ever submitted to the American people It swept every State in the Union like a whirlwind in 1866 Yet we are now told that it was the cause of the Republican defeat in Oregon last June!

Peace or War

The Democratic party was divided during the rebellion into a war faction and a peace faction The war faction was at the South and fought desperately against the Government, the peace faction was at the North and opposed the war for the defense of the nation While armed rebellion lasted, the Union men of the country were a war party Now, the rebellion being crushed out they are for peace, while the entire Democracy ar working in concert to bring on another war That is the issue. Every man who desires another war will cast his vote for Seymour and Blair, and every man who wants peace will vote for Grant and Colfax For the correctness of this it is only necessary to refer to the platform and the declarations of leading men of both parties

As the telegraph to day favors us with an account of a large Democratic meeting at Pittsburg, we "match it" by the following account, from the Pittsburg *Gazette*, of a Republican meeting at the same place on the 9th inst "Although several large meetings have been held in the present campaign by the Republicans of the county, still never in the history of local politics has such a monster meeting been drawn together in Western Pennsylvania Nor was the number in attendance more remarkable than the wild enthusiasm which prevailed. The attendance and spirit manifested went to show that the people have been fully aroused to the importance of the campaign and the pledge given in her behalf at the Chicago Convention will be more than redeemed in October and November The pledge given was that Allegheny county would roll up ten thousand majority for Grant and Colfax

The La Grande *Times* still gives notice that that gold brick is waiting for some Seymour man to match it.

[SPECIAL DISPATCH TO THE OREGONIAN]

The State Fair.

STATE FAIR GROUNDS SALEM Sept 29 - The State Fair opened yesterday with flattering prospects. The attendance was larger than usual for the first day and the number of fine horses was remarkable The receipts at the gate were something over $1 000

The show of cattle and sheep is not as extensive as heretofore, though many animals will, no doubt, yet be brought in

The exhibition in the Pavilion is rather meagre as to the number of entries but the qualities of good fruit and vegetables shown are superior. The agricultural and mechanical department is attracting quite unusual attention There are numerous Oregon inventions, which give this part of the fair an interest it never had before

It is said that the reports prevalent through the country of small pox is preventing many from attending yet the crowd to day is large and constantly augmenting

A very pretty race took place at 2 P M between Oregon bred colts three years old single dash of a mile for a purse of $50 won by Morgan's "Albany Timoleon" in 1 56½

Running Race

SALEM, Sept 29 — At 4 P M, the running race mile heats, best two in three, was contested by Southworth's Hickory, Wm Gird's clay blank colt, and M H Wallace's mare all four years old, Oregon bred First heat won by Wallace's mare in 3 25½ second heat by Gird's horse in 3 26, and the third heat and the race by Wallace's mare in 3 51 Hickory distanced in first heat The Board of Managers have added some additional premiums for races and several additional for Oregon inventions

Oregon Legislature.

The Senate refused to pass the bill to protect fair grounds

The bill to protect the owners of fire arms passed

The Senate bill repealing the oath of allegiance required of attorneys to entitle them to practice in the State courts, passed the Senate unanimously

Thompson introduced a bill in the Senate to aid in the construction of a canal and locks around Wallamet Falls, on the west side The bill appropriates two hundred and fifty thousand dollars from funds granted by Congress for internal improvements

Mr Huston introduced bills making the Soldiers' Bounty Aid Relief bonds payable in lawful money of the United States

Trevitt introduced a bill requiring foreign bankers, express companies, and fire and life insurance companies to deposit fifty thousand dollars in the State

In the House, Gilfrey introduced a joint resolution, in the preamble of which Senators Williams and Corbett are censured for voting for the reconstruction acts of Congress and impeachment, and charges that they are not representing the people of Oregon in Congress The resolution requires them to resign that persons may be selected as their successors who will fairly represent the State The resolution passed by a strict party vote—ayes 27 nays 17

Mr Bellinger gave notice of a bill to tax national bank notes

STATE ITEMS.

At a recent row in Jacksonville a man named Joory was severely cut about the head with a knife by a man named Richardson

Frank Dugan of Walla Walla, is a rampaging Price's rebel in Eastern Oregon What of the use? Every rebel of them will vote Democratic anyhow

A letter published in the La Grande *Times* states that Low's Station was burned on the 20th The stable, four horses and a quantity of grain were consumed.

A child of Andrew Coakley's, at Jacksonville, was kicked by a horse a few days ago, the kick fracturing the skull. There are hopes that it will not prove fatal

The house of E K Anderson, at Phœnix, Jackson county, was burned last Thursday Every thing in it was consumed The fire was caused by hot ashes carelessly placed

The *Sentinel* of Saturday has the following big item. On Wednesday last Judge Duncan was laying a foundation wall on the site of an old cabin, nearly opposite Britt's, and accidentally found a twenty dollar piece Quite an excitement was kicked up, and further search turned out six more of the same sized pieces. The mason at work for the Judge tore down all the wall he had laid, and found forty dollars mixed with the dirt mortar that had been made on the spot One hundred and forty dollars, in all, was found, which had probably been buried there by some miner who was a victim of the Indian war, some of the pieces being simply twenty dollar ingots from a San Francisco Assay office

Seymour During the War

A correspondent of the Meriden (Conn) *Republican* writes of a conversation he listened to in 1864, which will give the "doubting Thomases" of the Union party a striking proof of Seymour's indifference to the success of the Union arms during the trying time when Grant was fighting the rebel armies under Lee

"In December, 1864, I was in New York, stopping at the St. Nicholas Hotel At 10 o clock, P. M, I went into the dining room to get a cup of tea, and opposite me at the table sat two gentlemen. One of the gentlemen said to the other, "What do you think of Grant's campaign?" (The General was then before Richmond) The reply was, "The most stupendous military failure in the world." "How long," said the gentleman, "do you think the war will last?" "Four years longer," was the reply, "four years longer unless concessions are made to the South" I whispered in my waiter's ear, "Who is that gentleman," indicating the one who had replied He said, "Governor Seymour" It was the only time I had ever seen the gentleman, but the incident made such a strong impression on my mind that I made a note of it, and here for the first time reproduce it It was not much from a private individual, and would at the time only have marked him as a notorious Copperhead But now, as we are asked to make Gov Seymour President, every incident becomes of consequence when it indicates his past character.

FRUITS OF THE "SCIO DRUNK"—The reporter of the *Herald* went from Salem out to Scio and participated in the "Democratic drunk" on Saturday last, and the following which he sends to that paper is the result

On Saturday, the 26th inst, we were in Linn county, and witnessed one of the most tremendous demonstrations that has taken place since the day General Washington crossed the Trenton bridge upon flowers strewn in the streets by the hands of juvenile ladies of New Jersey

We hear from other sources that the reporter got lost in the streets of Scio, that he accidentally came in collision with a building on the corner, which "took a sheer on him" as he was trying to pass, that he was much damaged by the encounter, and towards morning was found by some of his friends and taken back, quite limp, to Salem He is fully convinced that Scio is the largest and most magnificent city on the Western Continent

Of the one and a half million dollars appropriated by Congress at its last session for clearing the public rivers and harbors, a very large proportion, under the direction of Major General A W Humphreys, Chief of the Engineer Corps of the United States, goes to the improvement of the South. For improving the navigation of the Mississippi, $350 000 are given, for the Tennessee $100,00, to the Louisville Canal $100 000 and this proportion holds good through the smaller items More Radical cruelty!

The majority for Shafer (Dem), for delegate to Congress from Idaho, is 884 Democratic majority in 1866, 718. The Democratic majority this year, as compared with that of two years ago, shows that Idaho contains just 166 more rebels now than at the last election The influx of rebels to these parts is a happy thing in one respect Missouri and Arkansas are both Republican States

The Chicago *Tribune* of the 12th inst says Hon John A Bingham of Ohio has accepted an invitation to visit California and make several speeches before the Presidential election He will leave immediately after the election in Ohio, on the 14th of October

A rebel from Mississippi has arrived at Walla Walla, and gives the *Statesman* a long account of the sufferings of the South under "Radical misrule" Isn't it just possible that the South owes some of its calamities to the acts of this rebel and associates?

LETTERS FROM THE CAPITAL

SALEM, Monday Sept 28, 1868

When I wrote to you, on Saturday, this city wore quite a deserted appearance, but everything is now changed and there is a perfect Babel in the streets The circus is here, the Bates' dramatic troupe is here, and at this moment the each have a band playing in the streets, the "Abolition Oil" man is making a harangue not far away, and about twenty men are driving around in hacks, omnibusses coaches etc each and bawling, All aboard for the Fair Ground there are a few men slightly under the influence of "corporation" and endeavoring to make themselves heard there is loud talking, laughing and cheering and a general hurly burly of movements and sounds Salem hardly ever gets upon a higher rampage than that now in progress

Mr Garfield is announced to speak at the Wigwam, this evening but has not yet (7½ o clock) opened Everybody is too much hurried and excited about matters connected with the Fair, and the rushing influx of people to turn out to a political meeting and I doubt whether Mr Garfield will have much of a house If Grant and Seymour were both here, I doubt if the swaying crowd could be kept an hour, to hear them talk The time is most unfavorable for political meetings Should Garfielde under the circumstances, get out a large audience, it would serve as the most emphatic assurance that the people here are in dead earnest for Grant and Colfax

THE STATE FAIR

The State Fair opens to day with more flattering prospects than usual There is every reason to believe that it will be, in almost every department, greatly superior to any fair ever held in the State There are on the ground a great number of fine horses, not alone of speed but of all kinds A horse man told me to day that there are here the best horses and the best teams he had ever seen in the State When I made the round of the stables, however, I saw but few of them it being at an hour when most of the owners or keepers were away If a man wants to see the horses at he must go in the morning I saw a couple of colts, raised in Benton county by Mr A K Wilkinson, which discount any thing for size that I ever met with One of them, a four year old, is seventeen hands and three inches high, and the other, from the same parents is three years old and stands seventeen hands and one inch Both are well proportioned, and heavy Mr W calls the older one "Waltout" and the other "Long Tom" They are good representatives of the two principal nations of Oregon

As yet there are not many sheep, cattle or hogs, but I hear that they are coming

The premises devoted to machines and agricultural and mechanical implements has already upon it a considerable number of threshers, mowers, reapers, harvesters plows, and minor implements The indications are that this department will receive more attention than formerly Among the exhibitions are a goodly number of Oregon made and Oregon invented machines, and this fact is the chief basis of hope that the Oregon State fairs will hereafter amount to something practical The Board of Managers to day agreed to add to their list of premiums, a number for Oregon inventions, and the Society never made a better move than this. Heretofore our fairs have been little better than agricultural horse trots with a little spice of big pumpkins and crocheted lamp mats

The great mechanical interests have never been represented properly, nor properly appreciated There are decided indications that many of the industrial interests, other than agricultural, are to be encouraged and developed The signs of the times are full of cheer Oregon is about to take an onward splurge Stand from under

In the pavilion not much can yet be seen as exhibitors have not generally unpacked their goods The articles put up to day, however are vastly finer and richer than I have ever seen here before

The race track is in bad order, the ground being hard and covered with about an inch and a half of dust There is dust everywhere, despite the sprinklers, and everybody and everything is covered with it Much as rain is feared at the State fairs everybody feels that a "right smart sprinkle" would be just the thing There are several sprinklers running but they have as yet made but little impression, beyond the streets of the city

The places of amusement on the grounds are fearfully and wonderfully numerous The trading and refreshment booths are equally so

The ladies of the Catholic Church have, just in front of the pavilion, a house of considerable dimensions, in which they are holding a fair, for some church purpose, I believe.

The Opening Address will be delivered on Wednesday at half past ten, A M, by Mr A J Dufur, the President of the Society, and the Annual Address will be delivered at 11 o'clock, A M, on Friday, by Mr J S Clarke

THE LEGISLATURE

The members have not all returned yet and it is doubtful if much business will be attempted this week

ACCIDENT TO THE "SUCCESS"

Exaggerated statements of an explosion on board the steamer *Success* were in circulation here this morning These have happily been disproved by the arrival of the steamer here this evening The damage done was only the bursting of the connection pipes and slight injury to a little of the wood work of the cabin floor, and to the roof —perhaps the amount of thirty or forty dollars

The New York papers have lately brought to notice the fact that Seymour, when Governor of that State vetoed a bill which had been passed by the Legislature, providing for the payment of foreign creditors in legal tender The veto was based on the principle that the paper money of one country is worthless in another, and that the purposed method of payment would be a virtual repudiation of the State debt This is a bitter pill for the Pendleton wing of the Democracy.

A California paper says accounts are received of an absolute famine in some portions of Northern Europe It adds The Relief Committee of Lyck, in Eastern Prussia writing under date of August 6, 1868, to parties in San Francisco, a copy of which we have seen, gives a sad account of the suffering there for want of food It tells of numbers dying of hunger, of fathers committing suicide when maddened by the cry of their little ones for bread when they had none to give, and depicts such walking skeletons as the rebels were wont to send back to us from Andersonville and Libby In Western and Southern Europe the crops have been much better than in Northern Europe yet the accounts show them to be much less than in former years There is no doubt but that Europe will want all of this year's crop that the United States can spare

IT IS AN INVARIABLE LAW OF NATURE, that every human being shall do those acts which he thinks will accrue good to him and that he shall avoid those acts which may occasion a loss to him or the family he is a member of In conformity with that law it is the duty of every person to purchase of Kohn & Fisel all the goods they may be in need of The fair sex who as a family are always most happy to comply with all things beneficial to themselves and families should not fail to examine the fine and extensive stock of Kohn & Fisel and they will confess their stock of Dry Goods to be of superior quality and at figures below other houses Men in need should and less calculating than our fair ladies should be reminded that Kohn & Fisel indeed are the leaders of fashion, the lowest in price and no man should wear clothes unless they are purchased at Kohn & Fisel's No 91 Front street

The Old Schoolhouse.

Whatever else to the night has gone—
The night that never shall know a dawn—
It stands undimmed in my memory still,
The old brown schoolhouse on the hill.

I see the briars beside the door,
The rocks where we played at "keeping store,"
The steps we dug in the bank below,
And the "bear track" trod in the Winter snow.

The corner brook [illegible] the [illegible]
Just as it did [illegible] to childish eyes,
And in dreams I throw the stones again
I threw at the [illegible] birds in vain.

The names on the weather-boards are part
Of the secret treasures of my heart;
Some yet a place with the earth-souls keep,
And some in the holds of silence sleep.

I hear the growl, from his central lair,
Of the swiftest boy who played for "bear;"
And the sound brings back the joy and glow
Of the chase around the snow.

Often again in thought I slide
On the stone-boat down the long hill side;
The breathless speed and the dizzy reel,
And the wind in my lifted hair I feel.

Alas me! There are spots that hold my dead
In a sleep unstirred by memory's tread;
And many a word of life's sunshine lies
Deep in the mists that never rise.

And things of rapture and things of tears
Are hidden within the veil of years
But the old brown schoolhouse on the hill
It stands undimmed in my memory still.

Are they Forgeries?

[From Harper's Weekly.]

The New York *World* says: "The Radical newspapers have forged speeches and put them in the mouths of Southern Democrats by whom they were never uttered."

Is it a forgery that Frank P. Blair, the Democratic candidate for Vice President, wrote to Colonel James O. Broadhead, on the 30th of June.

"There is but one way to restore the Government and the Constitution, and that is for the President elect to declare these acts (of Reconstruction) null and void, compel the army to undo its usurpations at the South, disperse the carpet-bag State governments, allow the white people to reorganize their own governments, and elect Senators and Representatives."

Is it a forgery that Wade Hampton said at a Democratic ratification meeting in New York:

"And I want you all to register an oath that when they (the white people of the South without regard to the exceptions of the Reconstruction acts,) do vote that these votes shall be counted, and if there is a majority of white votes that you will place Seymour and Blair in the White House in spite of all the bayonets that shall be brought against them."

Is it a forgery that Wade Hampton said at his recent reception in Charleston that he proposed in the Committee on the Platform in the Democratic Convention, to insert the words, "And we declare that the Reconstruction, acts are revolutionary, unconstitutional and void?" and that he added:

"When I proposed that, every single member of the Committee—and the warmest men in it were the men of the North came forward and said *they would carry it out to the end.*"

Is it a forgery that Mr. C. O. Langdon, delegate to the Democratic Convention, said in a published letter before the 4th of July, that the reconstruction measures are "unconstitutional, and of course, absolutely void," that this would be the chief plank in the Democratic platform; that the Supreme Court, probably at its next term, would so decide, and that he added:

"Then all we want is a President whose views are in accord with that decision, and who has the will and the nerve to do his duty to enforce the decree of the Court, it need be, at the point of the bayonet?"

Is it a forgery that John Forsyth said, in the Mobile *Register*, speaking of reconstruction:

"And here we may as well say that the people of the South do not intend to submit to that permanent rule, result as the Presidential election may?"

Is it a forgery that Raphael Semmes said at Mobile:

"I have come to declare that I have given in my allegiance, heart and soul, to the old flag, *provided* we can restore the old flag again to be the representative of the principles of the Constitution, which we will be able to effect by the election of Seymour and Blair?"

Is it forgery that the Charleston *Mercury* said:

"Peace was made by General Sherman in the spring of 1865, in his terms of capitulation with General Johnson. That was peace, and nothing else ever will be peace?"

Is it a forgery that Albert Pike said:

"The South is our land, the North is a foreign and hostile realm. * * * If the old Union can not be restored, we will hope to see the South independent before we die?"

Is it a forgery that General Battle, of the late rebel army, said at the Democratic meeting in Mobile:

"The Democratic party indorses principles for which you battled."

Is is a forgery that the Richmond *Enquirer* says:

"The next Democratic House of Representatives, in case of a contest, will recognize, and only recognize, such members as come there under legal constitutions, and that have been adopted by the free consent of the white people of the State?

Is it a forgery that the Richmond *Whig* speaking of the Blair letter, said:

"He [illegible] red without any hesitancy, and in terms too clear and decided to be misunderstood, that, were he President, the whole Executive power should be employed to blot out every vestige of Radical reconstruction?"

Is it forgery that Wade Hampton said:

"Try to convince the negro that we are his real friends; but if he will not be convinced and is still joined to his idols, convince him at least that he must look to those idols, whom he serves as his gods, to feed and clothe him. Agree among yourselves, and act firmly on this belief, that you will not employ any one who vote the Radical ticket?"

Is it a forg[illegible] that Albert Pike, as President of a D[illegible]ocratic club, officially said of Democratic c[illegible]s of recommendation for colored men:

"We hope th[illegible] hereafter, when any Democrat desires to employ a colored man in any capacity, he will ask to see his card, and if none is produced will refuse to employ him?"

Is it a forgery that the Chattanooga *Union* said:

Suffer any and all taunts or tyranny until after November, and then—well, we would rather be a nimble squirrel than a white Radical?"

Is it a forgery that the New York *World* said of such speeches of Wade Hampton as we have quoted:

"We have found them to be the candid and persuasive utterances of an honest and courageous man?"

And if these are all forgeries, why is it that the Charleston *Mercury* said:

"Private advices from our most strenuous friends at the North request that we should protest against the imprudent expression that have escaped some Southern speakers since the adjournment of the National Democratic Convention. * * * It is questionable whether at this time anything is to be gained by too much reference to things that jar on people's nerves. What we want just now is to win?"

If these are not forgeries they show distinctly that the policy of the Democratic party, should it succeed at the polls, will be the forcible overthrow of the governments of the Southern States. That will necessarily produce civil war.

The exhibit just made by the savings bank of Maine is a strong argument against the Democratic party of that State. It appears that the number of savings banks' depositors—mostly persons of the middling and lower classes—is equal to one-quarter of the votes of the State, and that the whole amount is invested in Government bonds. When these hard handed, "bloated bond holders" were told by Mr. Pendleton that they had been ground into the earth by crushing taxation, they found a rather paradoxical confirmation of the statement in the fact that there has been an increase of savings banks deposits of three and a half millions of dollars during the past two years, or nearly one hundred per cent.

A band of the Ku Klux Democracy recently whipped a woman most unmercifully at Versailles, Rutherford County, Tennessee, because they suspected her of divulging some of their secrets. There's chivalry for you! Whether they were the same gang who are said to have whipped a female member of Andrew Johnson's family is not known.

Who is Frank P. Blair?—A correspondent of the Petaluma *Journal and Argus* says that at a Democratic Club meeting at Healdsburg, one of the speakers, after having got through with the platform and Seymour, the nigger, etc., thought he ought to say a good word for Blair. So he got off the following: "Who is Frank Blair? I say, who is Frank Blair? Hugh? He is the man that marched with Sherman from Atlanta to the sea, and when Sherman surrendered his, Blair laid down his arms and accepted the conditions."

The New York *Times* says that some of the Democratic papers hoist the name of Horatio Seymour at the head of their columns, in connection with the picture of a man who is nailing the flag of his country to a liberty pole that pierces cloud land. We have scanned the man's features very closely to see if they resemble Seymour's, but they are much more like Grant's. It was certainly Grant, and not Seymour, who bore our flag aloft to the heavens.

EXTINGUISHER

PORTABLE

SELF-ACTING FIRE ENGINE!

THIS INVENTION HAS FOR ITS OBJECT THE extinguishing of Fires in a more instantaneous manner than has hitherto been discovered.

The advantages to be derived from the use of the EXTINGUISHER are as follows:

Every fire begins on a small scale, and its rapid and uncontrollable increase is owing to the fact that at the time of its commencement (when every moment's delay in checking it is of the utmost importance) no means are ready at hand.

The EXTINGUISHER is the only Engine that fills this requirement.

It is always ready for use, though standing unused for years.

It puts out Fire instantly.

It saves the great damage of water now used for this purpose.

It is as effective in the hands of a Boy as the most experienced Fireman.

It is portable, and as easily handled as a bucket of water.

It possesses within itself the power of a force pump, and as effective as a Steam Engine.

It is the only known invention that will put out Fires from Kerosene, Tar, Naphthaline, and combustible materials now in common use.

REPUBLICAN PRINCIPLES

THE IRISH REPUBLIC NEWSPAPER, PUBlished in New York, is dedicated to the promulgation of the principles of the Republican party. It is now engaged in a bitter and brutal arduous struggle with all the reactionary elements which have so long controlled the votes of a large portion of Irish birth. Its circulation and influence are being widely extended, but as in all such enterprises, the results are all consumed in the efforts at maintaining and extending that influence. The paper is a large and handsome Weekly, published at a subscription price of two dollars per annum. We propose to devote our columns to the great work of the pending campaign. We will send the *Irish Republic* for four months, for ONE DOLLAR, in packages of ten and upwards.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases of [illegible] years standing and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret self-indulgence, at from the absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation they sunder life, until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life destroying maladies, see that they are cured for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest the city, publishing themselves [illegible] curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emission, the consequence of self-abuse. This solitary vice or degrading sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating the disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus certificates dupe the unwary. Some of the self styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are too lazy to work at their trades. Some are from the shoe makers, newspaper carriers, [illegible] office keepers, etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets, for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

REMEMBER TO LET BOX 252 ON THE LETTER.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.
